Dear Parent/Carer

Re: Year 11 – Online learning Platform

I would like to inform you of an online learning platform we would like to use for our Year 11 students to help them prepare for the summer exams. It is called Seneca Learning <https://senecalearning.com/> and provides students with exam board specific questions, notes, summaries and videos. This is a completely free resource.

In order for your son/daughter to access Seneca Learning they will need to set up an account which requires them to provide their first and last name, their school email address (which is their school username followed by @highamlaneschool.co.uk) and finally a secure password, which is a mix of upper and lower case characters. Once the account is set up the site requires you to provide parental consent with a valid email address.

Once registered the students are able to access the resource on pc, tablet or smart phone for their own personal revision. Their Science teacher can also set specific work for them to complete by following the link provided to them by the teacher.

The security of your son/daughter's personal data is important to us, therefore we have undertaken due diligence to satisfy ourselves Seneca Learning is GDPR compliant, for which it is. Can I strongly encourage you to read their terms and conditions with particular emphasis on data protection/privacy by following this link <https://senecalearning.com/terms-and-conditions>

If you have any questions then please do not hesitate to contact me at the school.

Kind regards

Mrs E Huxley

Head of Science
