

HOW TO GET THE MYED SCHOOL APP

The My Ed app is available for both Apple iOS and Android devices and can be found using the links below:

1. Go to your App Store
2. Search for My Ed
3. Download the Free app

Once the parent/carer has installed and opened the My Ed App:

Allow the request for notification and then search for Higham Lane School

Complete the fields presented (Name, Mobile number and Email address)

Tap the Link Account link. A security code will be sent to the mobile number given. This security code should be input in the relevant field on the App and the Create Account link should be tapped.

After a short period of time the parent/carer will then be able to see and access the public – facing buttons on your App.

Overnight, My Ed will check that the mobile number given by the parent/carer matches the number attributed to a parent/carer with parental responsibility in our MIS system, if this number is correct the parent/carer will be able to see the relevant child(ren) on the My Students button on the App. If this number does not match and/or is not attributed to a Parent/carer with parental responsibility in our MIS then the parent/carer will not have access to this area.

How the My Ed App deals with multiple students for the same parent/carer

If a parent/carer has more than one child in our school and the parent/carer taps the My Students button, the names of all of the children, that they are responsible for, will be listed.

The parent/carer taps on the name of the relevant child and My Ed will show the details pertaining to this child.

Please Note : Once a parent/carer has downloaded the app and connected to a school they are immediately able to start communicating with the school
